Class/Seminar Teacher Evaluation

This survey requests your feedback on two separate aspects of your learning experience, split into three sections. The first section asks for your views on your teacher's class/seminar teaching. The second section asks for your views on the course as a whole *at this point in time*. Finally, the third section asks for some information about you, to aid analysis. Your views are valuable to your teacher and to the School. The results will be used to identify good practice and will also be used to help improve the teaching and learning experience for you and your peers.

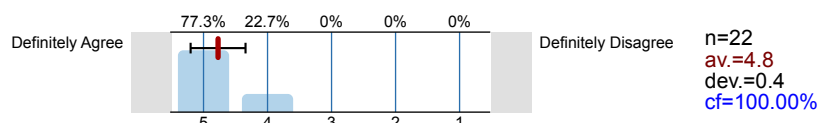

The School reports internal survey results as the percentage of respondents who 'mostly agree' or 'definitely agree' with each statement, in comparison to the percentage of respondents who either 'mostly disagree' or 'definitely disagree' or 'neither agree nor disagree'. The percentage of respondents who 'mostly agree' or 'definitely agree' is the '% Agree' result. For example, the % Agree score means that X % of students on Y course mostly or definitely agree with the statement 'I have received helpful comments on my work'.

Please show the extent of your agreement by selecting the box that reflects your current view of your class/seminar teacher:

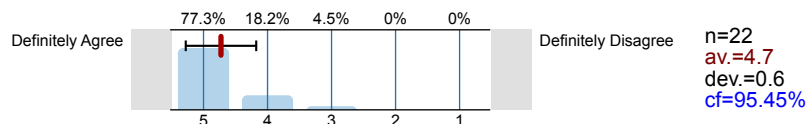

1.1 The teacher communicated ideas and concepts effectively.

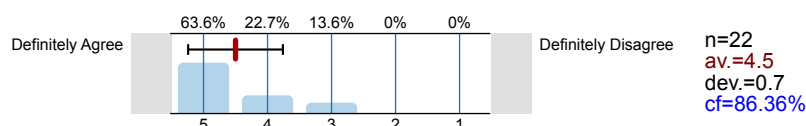

1.2 The teacher has improved my understanding of the course content.

1.3 The teacher has made the subject interesting.

1.4 The teacher is good at involving members of the class/seminar.

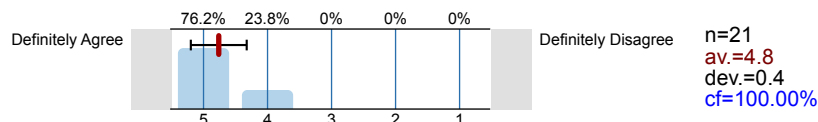

1.5 Have you received feedback on your work from this teacher?

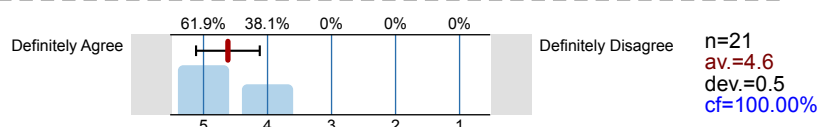

Please show the extent of your agreement by selecting the box that reflects your current view of your class/seminar teacher:

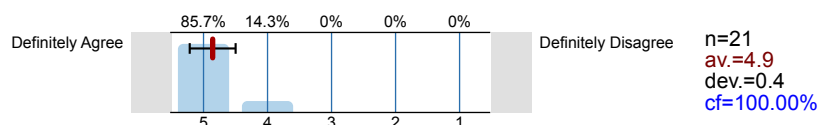

1.5b Feedback on my work has been timely (typically 3-4 weeks after submission).

1.5c I have received helpful comments on my work.

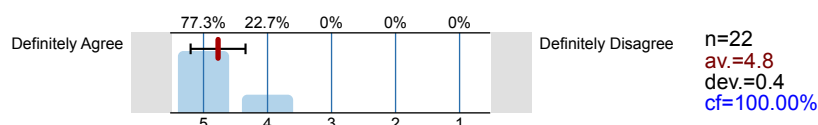

1.5d I was able to seek further clarification on feedback from the teacher where needed.

Please show the extent of your agreement by selecting the box that reflects your current view of your class/seminar teacher:

1.6 Overall, I am satisfied with the class/seminar teaching by this teacher on this course.

1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Alberto doesn't make the content too complicated and is focused on trying to improve our understanding of the course
- Asks the class whether we are familiar with concepts the lecturer assumes we know, and explains them thoroughly if not. Also replies to emails giving tips on problem sets, making them a lot more accessible to work through.
- Going through key concepts at the start of class
- Good at explaining concepts effectively
- So great!
- Use of visual aids, e.g. ppt slides and diagrams was extremely effective. Good use of links to real life examples to aid understanding. Went the extra mile by covering difficult concepts covered in lectures again in class even if we didn't ask for clarification. Teacher is very keen and enthusiastic.
- Very good in communicating/explaining material.

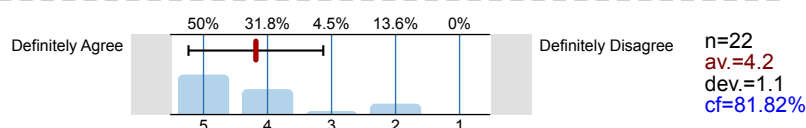

1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- Absolutely nothing.
- Clearer handwriting
- I would like teachers to mark problem sets more often (I know Alberto doesn't decide this). I would also like to be able to submit problem sets online rather than only through the pigeon hole system
- Involve more students in class discussions
- It would be helpful if we receive feedback on all problem sets or more detailed feedback. It would also be great if all powerpoint slides used in class could be circulated (otherwise it's quite stressful having to take notes/pictures of the slides while also paying attention).

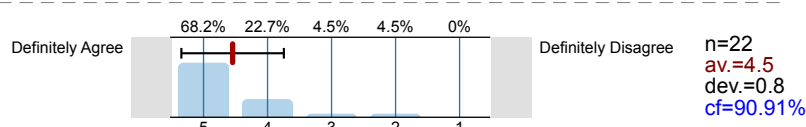

Course Evaluation

Please show the extent of your agreement by selecting the box that reflects your current view of your experience on this course to date:

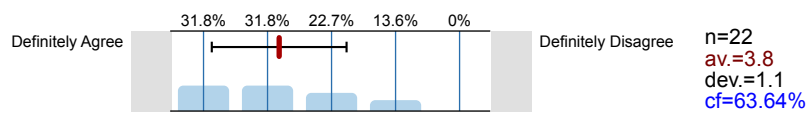

2.1 This course has challenged me to achieve my best work.

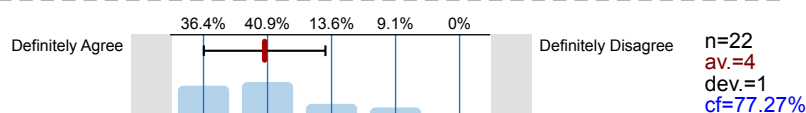

2.2 This course is intellectually stimulating.

2.3 I have received sufficient advice and guidance in relation to this course to date.

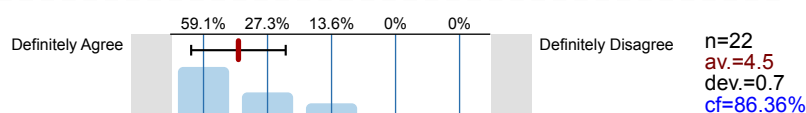

2.4 I am satisfied with the amount of contact time with teachers for this course.

2.4b Please comment below about why contact time with teachers has been less than satisfactory.

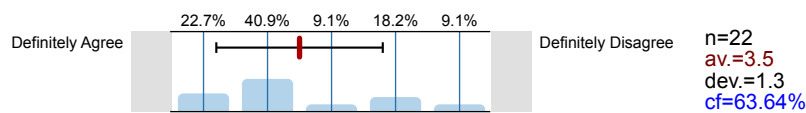

- All teachers office hours are packed with students, in one hour 2/3 questions get answered so there isn't enough time to answer everyone's questions and they remain unanswered
- Due to the volume of content covered in the lectures, the class teacher is always pressed for time to complete all his teaching in one hour. Adopting 2 hour classes will give more time for us to interact with teacher and ask questions and also means that teacher does not have to rush. Ec201 (microeconomics) has done this and it has proven really effective as we are engaging with the material more.

2.5 I have been able to contact staff about this course when I needed to.

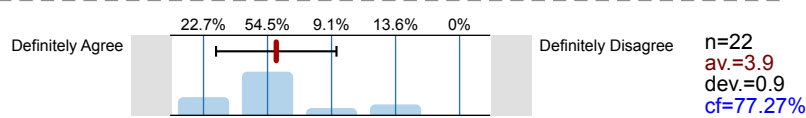

Please show the extent of your agreement by selecting the box that reflects your current view of your experience on this course to date:

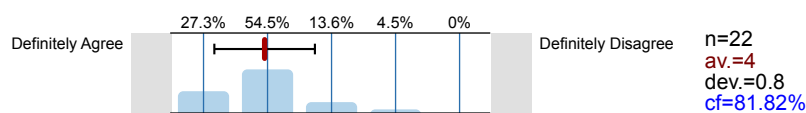

2.6 The criteria used in marking have been clear in advance.

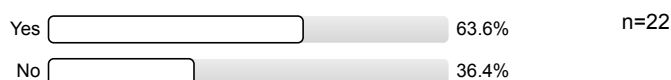

2.7 Marking and assessment has been fair.

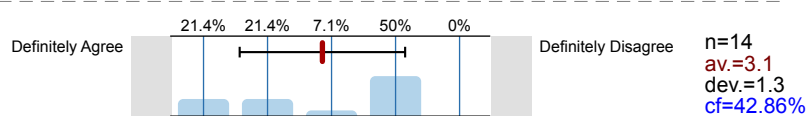

2.8 The feedback I received has helped my learning and performance on the course.

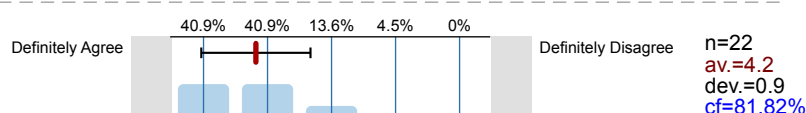

2.9 Do you have a reading list for this course?

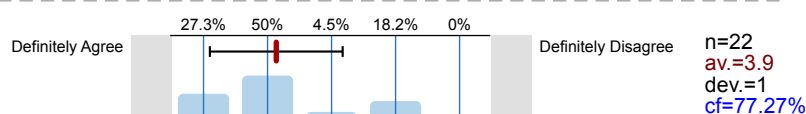

2.9b The reading list(s) was useful for my learning.

2.10 I found Moodle useful for my studies on this course.

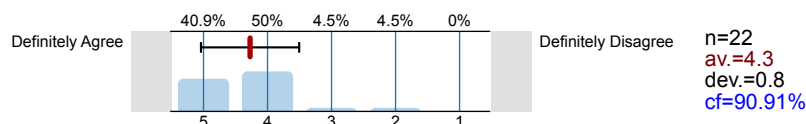

2.11 The course material provided was useful for my studies and learning.

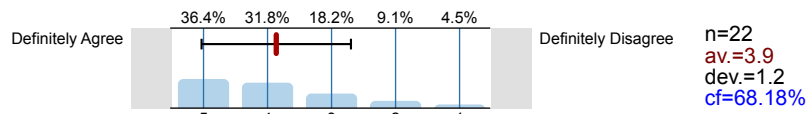

2.12 Do you have lectures for this course?

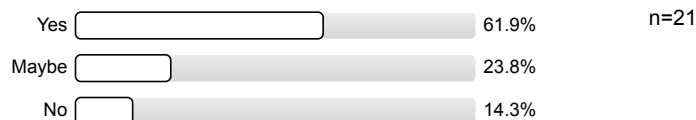

2.12b I am satisfied with the integration of classes/ seminars with lectures on this course.

2.13 Overall, I am satisfied with my experience on this course.

2.14 Would you recommend this course to other students?

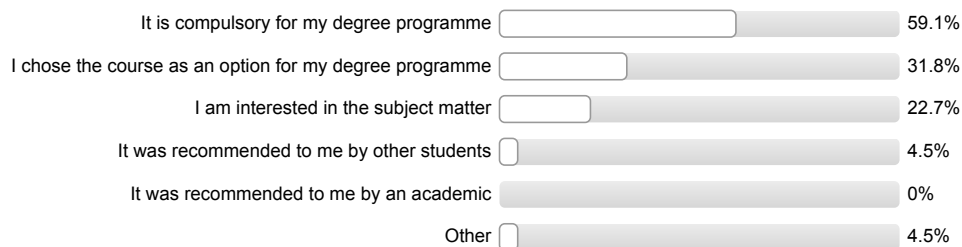

2.15 Please comment below on aspects of this course you think were particularly good.

- Apparently Ricardo is a genius which is cool. I like how Derek runs help sessions but I wish they were at a different time or recorded. They're so late it's hard for me to fit in with my studies
- Interesting links to real world examples.
- Interesting topics
- Very interesting and well taught - great lectures

2.15b Please comment below on aspects of this course you think could be improved.

- Examination: Could do a 50% January exam covering all of MT, so that there is more time to focus on revising the LT material before the summer exam.
Course trip: Maybe organise a trip to the Bank of England to get to speak to some of the people working there.
- In LT the problem sets were a huge step away from the lectures to the point where they seemed to bear no relation.
- It is too fast paced and packed with too much economic content. Saying that we're students at LSE so we should expect this isn't a sufficient justification for making students stress over the content and the course to an unhealthy extent. Being an individual who goes to lectures, re-watches them to fill in gaps, goes to Derek's workshop and my own teachers office hours alongside doing the problem set each week, I can say that the amount of effort that goes into trying to understand the course content means that studying economics is far from enjoyable at LSE.
- It's so hard. I feel like many joint honours /non Economics students are left behind
- Not clear on how exam questions are marked
- Ricardo goes far too fast meaning that he misses vital steps when explaining something. There is far too much to cover for only just 10 weeks. Indeed many teachers have said that we are covering 2 years worth of study into one. This means that it is harder for us to keep up and puts a lot of pressure in the time constraints we have before the exam to fully understand everything that has been covered, which is a lot. Some of the things he covers like VAR, aren't even strictly relevant to know. He should focus on going more slowly and perhaps reducing some of the content so that more time can be spent on each topic.
- The lecture pack is at times to confusing and has too many mistakes.
Some topics, such as ISLM are just not explained in enough detail.
The Lent assessment was not based on intuition but mostly math and Microfoundations, not rewarding an actual understanding of the material but rather studying the material by heart. This contradicts the communicated message of Macroeconomics being about understanding the models.
- The slides have TOO MANY TYPOS, and are not self-contained.

Your Information

3.1 Which of the reasons given below describe why you are taking the course? *(Please select all that apply)*

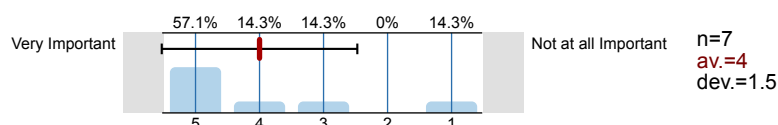

n=22

3.1b Was this your 1st, 2nd, 3rd or other choice?

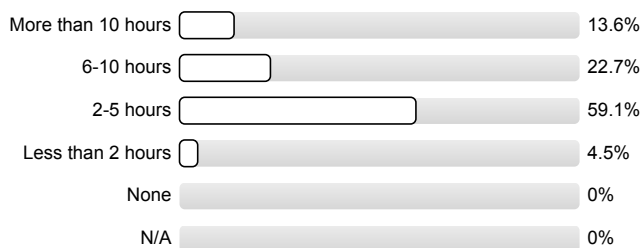

n=7

3.1c In relation to what you wanted to study, how important was choosing this course to you?

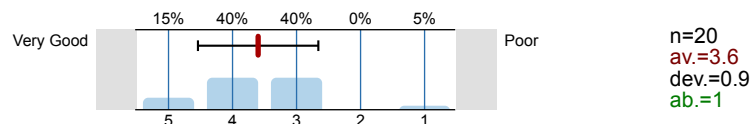

n=7
av.=4
dev.=1.5

3.2 How many hours of independent study do you put into this course each week outside of lectures, classes, and seminars?

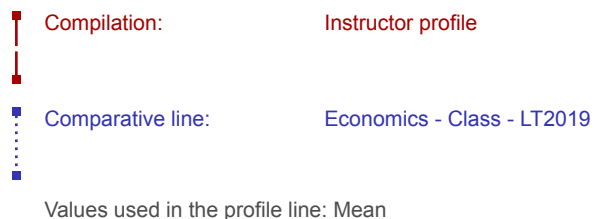

n=22

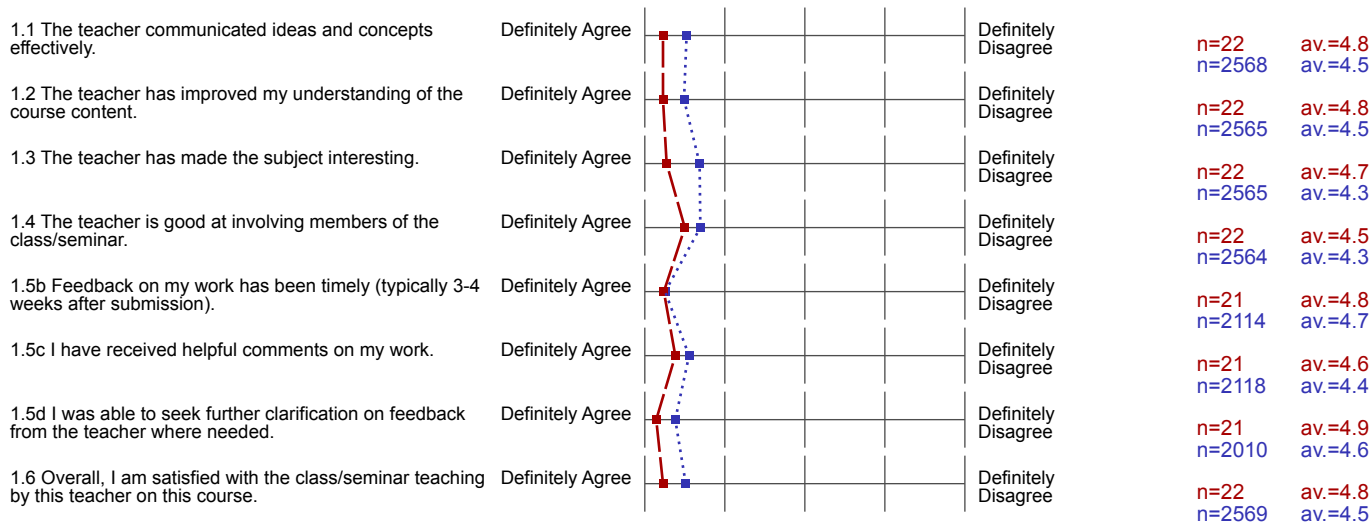

3.3 Please rate your own contribution to classes/ seminars.
