1. Class/Seminar Teacher Evaluation

This survey requests your feedback on two separate aspects of your learning experience, split into three sections. The first section asks for your views on your teacher's class/seminar teaching. The second section asks for your views on the course as a whole *at this point in time*. Finally, the third section asks for some information about you, to aid analysis. Your views are valuable to your teacher and to the School. The results will be used to identify good practice and will also be used to help improve the teaching and learning experience for you and your peers.

The School reports internal survey results as the percentage of respondents who 'mostly agree' or 'definitely agree' with each statement, in comparison to the percentage of respondents who either 'mostly disagree' or 'definitely disagree' or 'neither agree nor disagree'. The percentage of respondents who 'mostly agree' or 'definitely agree' is the '% Agree' result. For example, the % Agree score means that X % of students on Y course mostly or definitely agree with the statement 'I have received helpful comments on my work'.

Please show the extent of your agreement by selecting the box that reflects your current view of your class/seminar teacher:

Please show the extent of your agreement by selecting the box that reflects your current view of your class/seminar teacher:

1.9) 1.6 Overall, I am satisfied with the class/seminar teaching by this teacher on this course.

1.10) 1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Alberto has an outstanding grasp on all of the content and teaches it in a very accessible way. His slides for the class are extremely helpful, and he is dynamic in his teaching style (in the sense that he will spend more time of topics that he knows the class is struggling with)
- Alberto is a great class teacher, he provides us with really good resources and takes his time to explain homework and concepts in class.
- Alberto's slides are amazingly helpful. I do not think I would have understood half of the course without him breaking down the aspects which we are bound to find difficult. He is also very good at explaining problems which people bring up in class, even ones outside of the content we have been given in lectures. Within the slides, I find the graphs with the explanations of shifts especially helpful.
- Class slides are particularly useful.
- Good
- Has deep knowledge, summarises content in excellent slides, can explain concepts well
- Have visual aid to help explain
- He made his own slides which summarised the concepts really well.
- Slides given during class. Being able to get further clarity/explanation on any questions asked
- The lessons are well planned and Alberto covers loads of stuff very clearly and concisely. The addition of his excellent slides means that his lessons are very useful.
Alberto is the kind of teacher I would want for all of my courses.
- The teacher consistently provides key insights into the course content in spite of the reluctance of many class members to participate. This reluctance is mostly explained by the fact that many students are simply not up-to-date with classes and lectures due to countless other deadlines elsewhere, so it would be hard to encourage participation beyond a fairly low level. Nonetheless, he maintains a passion for teaching and does as well as one possibly could in the circumstances. On the whole, a great teacher.
- Very engaging! He made me want to learn the topic further and understand the mistakes I had made. Great feedback for work
- Very good explanation provided during class and office hours.
- Well paced, intuitive explanations of concepts. Clearly a lot of work goes into his class PPT presentations too. Alberto is the best economics department class teacher I have had during my time at LSE.

1.11) 1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- Class should be 2 hours
- Could go slower in second half of MT but think this is more an issue of the classes not being long enough.
- Good
- N/A
- Perhaps some more group work would have been interesting

2. Thank you - Part 1 Complete

- 3.2) 2.2 This course is intellectually stimulating.

- 3.3) 2.3 I have received sufficient advice and guidance in relation to this course to date.

- 3.4) 2.4 I am satisfied with the amount of contact time with teachers for this course.

- 3.5) 2.4b Please comment below about why contact time with teachers has been less than satisfactory.

- 2 hours would be more appropriate - there is not enough time to run through all the topics with the proper degree of explanation.
- Classes should be 2 hours as for EC201, there is simply not enough time for teachers to cover all lecture content.
- Office hours for Lent Term - Often, I end up waiting for my turn longer than actually getting my questions asked.
- These are complicated concepts and require more time to understand, increasing contact hours to 2, would be really helpful.

- 3.6) 2.5 I have been able to contact staff about this course when I needed to.

Please show the extent of your agreement by selecting the box that reflects your current view of your experience on this course to date:

3.17) 2.14 Would you recommend this course to other students?

3.18) 2.15 Please comment below on aspects of this course you think were particularly good.

- Excellent content
- Good
- Interesting content
- Interesting topics, great class teacher.
- The concepts were interesting
- The course is intellectually stimulating, and also quite interesting. The lectures and classes are very well taught.

3.19) 2.15b Please comment below on aspects of this course you think could be improved.

- Challenging. Lecture slides do not correspond to problem sets
- Good
- I think there should be more guidance on how to answer exam questions, it is not very clear what exactly is expected for us, even the solutions to our homework are not the exact answers they are looking for. This makes it very hard and confusing to revise.
- Lecturer should not take pride in the fact that problem sets are basically impossible. I appreciate wanting to do "cutting edge" macroeconomics but the problems sets should bear some resemblance to what has been taught in the lectures. I think perhaps the

fact that the problem sets are just old exam questions is an issue because it means they are not constantly mirroring what Ricardo is actually teaching. Classes being a complement not substitute is understandable but sometimes the gap is too large and it's like taking 2 separate courses.

- Often office hours were swamped and there were times I was sitting for 20 mins until the end of an office hour without being able to get my questions answered.
- The policy of only marking a given proportion of problem sets, and at random, is simply disappointing. If hundreds of students are putting in the effort to do these sets, it is simply disheartening for half of the effort to go to waste. Obviously, it is impractical to ask for every week to be marked. Therefore, given the marking of problem sets solely exists for us to gain feedback and improve and they do not actually count to our degree, it would be far better to just tell us which weeks are going to be marked and then allow students to do the other sets for their own benefit if they so wish.
- The standard of English in the slides is poor enough to actually pose a problem
- The way the topics are covered could be done in a more understanding manner. I found a lot of the mathematics shown to be not needed and actually made me worry more than understand what was actually going on
